

WE'VE EXPANDED AND WANT YOU TO KNOW ABOUT OUR NEW  
AND IMPRESSIVE **CYLINDER SERVICE SHOP**

With 3 cylinder disassembly benches capable of up to 60,000 ft/lbs of torque, Honing machine, Rod polisher and high-pressure testing equipment we can attend to all of your hydraulic cylinder servicing and repair needs! Our team of 12 technicians can get your job done more quickly and efficiently than ever before! For the more unique and/or specialized work we also have highly qualified machinists in the mix with full machine shop facilities to get the job done.

All of our hydraulic technicians are skilled and properly trained in the use of this highly specialized equipment, and are required to follow proper QA/QC protocols.

Come and visit us at 291-E MacAlpine Cr. in Gregoire (beside Purolator), or telephone the shop at (780) 799-7340, and be sure to watch for our "Official Opening" in early 2013.
